FALL PLANTING FOR 1959

We take pleasure in presenting the following list of bulbs which we have to offer for 1959 Fall planting. Each year we include a few of the newer varieties of recent introduction, as well as the older tried varieties. These bulbs are produced in Holland and shipped to us directly from our grower. We solicit your inquiries and will be glad to be of any assistance in helping you to get the best results.

* * * * TULIPS * * * *

Tulips include a great number of beautiful and interesting varieties. They are of easy culture, growing equally well in either a sunny or shady location. Bulbs should be planted in well prepared beds. If the soil is heavy the addition of some sand and bulb food will help the growth and bloom ability of the bulbs.

In planting tulips it is recommended that bulbs be planted in groups instead of in single lines. Groups of six to twelve tulips of one variety are very effective.

* * NEW DARWIN HYBRID TULIPS * *

These new Darwin Hybrid Tulips are of recent introduction and are exceptionally beautiful because of their brilliant colors and huge size. They are the largest tulips ever raised. This variety is a cross between Darwin Tulips and Tulips Fosteriana.

The Rosehill Gardens presents the foregoing list of bulbs as the finest and most complete selection we have ever offered. This past week a letter from our bulb grower in Heiloo, Holland brought to mind the fact that 40 years ago this fall they received their first order from us. In 1919 Grandfather Evert Asjes sent them an order for 500 Darwin Tulip Pride of Haarlem. This year our shipment includes 80,000 assorted bulbs. Each season we have increased our orders to meet the growing demand for the finest bulbs obtainable.

The Rosehill Gardens is comprised of over 150 acres of growing areas in four locations: 9300 Holmes Street; 90th Street and Old Grandview Road; 96th Street and Blue River Road; and 116th Street and Blue River Road. On these nurseries we have under cultivation many Evergreens, Flowering Shrubs, Shade Trees, Ornamental Trees, Flowering Trees, Perennial and Annual Plants. The following list comprises a few of the more choice plants which we grow and have available for planting.
